TAME "SUFFRAGETTE." URGENT APPEALS FOR MONEY.

The "Suffragette" week is again a very unmilitant, organ of militancy. At the offices of the Women's Social and Political Union in Kingsway there is also an atmosphere of dejection. The stream of funds is rapidly drying up, and the "Campaign throughout the country", column in the "Buffragette" is indicative of worful

Apparently Miss Christabel Pankhurst
Arairaid that the French Government may

take action, for an article appears ou Political Refugees," which concludes: The right of asylum has always been granted by England to political refugees, French and otherwise, Henri Rochefort, Louise Michel, Victor Hugo, Prince Kropotkin, Stepniak - these are but a few out of many. In France going to deny that right to English political agitators? We cannot think so; but, if the rumours now

being circulated have any foundation, then we can only trust that the decree of expul-sion will be made equally applicable to re-fugees of all countries and of both sexes. Mr. Bodkin is asked to note that the W.S.P.U. has received about £6 as a protest against his apoech. In the list of contributions are three for £1 and one for

A Natural Remedy

Time was when disease was thought to be due to the direct influence of evil spirits, and exorcism and magic were invoked to cast it out.

Science has taught us wisdom. The evil spirits exist still. We call them "Disease Germs," and they also must be cast out. Once lodged in the stomach or intestines, fever with its hallucinations, or biliousness with its aches and pains, is the result.

EMOS FRUITSALT

is the approved remedy for driving out disease germs. Its action is quick and thorough. It clears the intestines, rouses the torpid liver to new life, stimulates the mucous membrane to a healthy. action, and cleanses and invigorates the whole digestive tract.

It may be safely taken at any time by young or old.

WAGES AND CONDITIONS IN to the men of the Royal Dockyards

THE ROYAL DOCKYARDS. If fall in the private yards, but in the State Dockyards, where the hours are shorter, the system of reducing wages is unknown in the Dockyards of wages gran ad to the employes interests of the taxpayer should be weighed in the Royal Dockyards, as announced in detail by Dr. Macnamaia, will put an end to some of the unrest and dissatisfaction which has prevailed more or less at all the yards. A few weeks ago it appeared uncertain whether or 10 the Admiralty would consider it just or politic to grant a further advance of wages. By his replies to numerous questions in Parliament asked by only received an average of 15sm and the the members for the Dockyard boroughs Dr. Macnamara may have left many people under the impression that the demands of the workman could not be met. But this inflexible attitude was not in reality assumed by the Admiralty, or, to be precise, by the be regulated by length of service solely, Parliamentary Secretary, The general policy of the Admiralty over a long period of years has been to grant small increases of wages n the Deckyards from time to time. The principle on which these advances have been conceded has not varied. As wage, wrights carn from 31s. to 36s. weekly, have risen in the private shipyards of the Central. (First Floor). Hongkong, at 12 kingdom the Admiralty have been abliged o'clock Noon on SATURDAY, the Twenty- to take some account of these tendencies in to take some account of these tendencies in first day of June, 1913, for the purpose of the labour market; yet the principle to 40c, and the established list having an account laid before them for the has constantly filed that the Government workmen shall be paid less than their contemporaries in private yards. In the out of the State workmen who are on the established list and working for future pensions this is beyond doubt a perfectly fair arrangement -at any rate in principle. This is well understood by the State workmen, and few of them would desire to change places with their contemporaries in granted to the unskilled labourers, so that the open labour market. It would be ex- in future none should earn less than 234, tremely difficult for the ex ablished men to out effective pressure upon the Admiralty, 17th based the demand for higher wages and it stands to the credit of successive upon the serious sincrease in the Boards that these men have always bene cost of living. This increase fited when an increase of wages has been officially put at about 15 per cent. gr nted to the "h red " list. From this it is parts of the kingdom the former purchasing manifest that the Admiralty have simed at power of £1 has bunk to 17s. 6d. In most treating their workmen justly, and the fact localities, too, wents have advanced, and that no strike has ever taken place among the Chatham, and Devenport. Allowing for State workers is a fairly strong proof that the increased cost of food and, for higher the State service to private employ. Now, since 1800 anough place the works with the state service to private employ. Now, a better position than they employed

the public may not know, the established reconomically before the war. list, although it includes all classes of workmen, both skilled and unskilled. totals only 6,447 men-that is, about onesixth of the whole number employed. The great majority of the workers are consequently in an inferior position to the privileged establishment, although on the hired list the rates of pay are actually higher. It has become evident within the past two months that the Admiralty have not so strong a hold upon this majorily, composed of hired workmen, as may have been assumed at Whitehall. are not prepared to assert that the recent dissatisfaction with the rates of wages would have colminated in a strike had concessions been refused. We are willing to believe that this possibility has not greatly influenced the Admiralty, because it is probable that the Admiralty would win in the event of a strike by the hired list. Yet the refusal of nearly all the skilled workers in certain trades to work overtime must have been something of an sys-opener for the authorities. Certainly this decision has accelerated Dr. Macuamara's deliberations. which threatened to be leisurely and there is some danger, in our opinion

that the men may consider they have coerced the Admiralty. If they do take that view there will be more agitations in the near future, but it is not at all probable that further advances in wages will be conceded within the next few-years. In mund figures the wages have now boon increased by £250,000 since 1906, and about £42,000) of this increase was granted last year. The concessions to the civilian workers under the Admiralty have been far more liberal than those only recently granted to the fleetmen ; for, as will be seen from Dr. Macramara's speech, many of the skilled workers now receive an increase of 2s. por week over, and above the

increase granted last year, whereas the

petty officers and seamen have secured but

one increase, amounting to 31. a day. The

boom in the shipbuilding trade, socom-

panied by general rises of wages, is mainly accountable for these further concessions

by the Admiralty when higher wages are demanded by the State workers. Our Pembroke correspondent r cently gave a brief but interesting summary of the increase of pay granted to the State men in 1873 and subsequently. In 1873, when Mr. Guschen was First Lord, the mechanica received an increase averaging nearly 3s. per week, and the labourers about 2s. a we k. E on then the unskilled labourers I shipwrights were earning from 30s. to 31s. The next important increase it wages was granted in 1891, and Mr. Forwood then. introduced system of classifica for by selection, protests against which have con-stantly figured in the petitions. In the view of the men, increase of wages should and not by selection. Again, in 1894, when Sir U. K. Shuttleworth was Parliamentary Secretary, a small increase of wages was granted. On that occasion the shipwrights received only sixpence a week increase, as compared with the present jump of 2s. To day the establi-hed ship. and the bired list m n of that trade from 36s to 33s, up or the new scales just; announce l. In the engineering trades the hir d men will, now carn from 3'H. men up to 38 . pr week. These rates ar assuredly good, especially in confunction with continuity of employment yards. We must repeat that the Admiralty hours are shorter than those wirked private yards, and that overtime is paid for at special rates." Porhaps these special rates for evertime are still too low, but, a skilled mechanic, when so engaged, is able to earn a high wage. An average increase of another shilling per week has been weekly, and many will receive more. The since 1:08 should place the workers in Other Receipts

When the boom is over wages may easily

Little has been said in Parliament concerning the other grievances of the dockyardmen, but, some of these have been mint oned by our correspondents in the Dickyard towns. Hope is now enter-tained that the hired mon will be onabled by the Admiral y to attain to contributory pinsions. This will de pend upon how much of their wages they are prepared to secrifice towards the pengion for it is generally, agreed that the scheme will have to be well-authorizing. It is very important that the hired list mon shall be adequately considered in all recsonable respects, for the present system sot granting them gratuities on discharge is, alike costly to the country and hard upon the men. During the ten years 1902 3, to 1911 12 the money awarded in the form of gratuities to lieed workmen on discharge amounted to nearly £170.0 0. Sapart Iron J. A. HAMILTON. JAPAN'S PLACE IN THE WORLD.

A Grave International Issue.

Sir Valentine Chirol, in the course of an article in "The Times" on the Alien Land Bill passed by the Californian State Legislature, says :- " Probably the majority of Japanese immigrants are, on the whole, superior to many at least of the ignorant and squalid mass of Slovaks, Ruthenlans, Russian and Polish Jews, and others who swarm over every year from Eastern Europe to America, and whose absorption and assimilation, as thoughtful Americans themselves recognise, are beginning to constitute a very formidable problem, both social and political. If the right of nationalisation is to be denied to all Japanese, it cannot be on the ground that every Japanese is personally more undesirable as a citizen than any European. A colour bar cannot very logically be pleaded as in 764 itself prohibitive by a State which within living memory waged the greatest civil war of modern times in order to establish the claim of American negroes to equal rights of citizenship with the white population of the Republic. The bar of racewould seem to be the only one which could be plausibly maintained. The Japanese rank as an Asiaticxrace, and if there is no room for any Asiatics in the wide fold of American citizenship, there can, therefore, be no room for Japanese. "Though the Japanese display canneteristics which no other Asiatic race possesses in mything like the same degree, if at all-e.g., thoroughness and mothod, great organising ability, in fact, the infinite capacity of taking pains, and above all the spirit of patriotism and will-sucrifice Japan has been too long bound up with Asia by geographical propinquity and by the traditions of her own ancient civilisation to repudiate her Asiatle descent. The question which she may raise with much greater propriety is whether her Asiatic descent is permanently to disqualify her for the enjoyment of the full rights freely accorded to one another by the great nations into whose comity she has already gained entrance on footing of complete political equality. Her example, too, has fired the imagina. to restrain the passionate outburst of tion of the whole of Asia. Though per- popular feeling in Japan." haps none may be capable of following in

They were advancing in years, and after Prince Ito was assassinated in Manchuria, in 1900 there was none left amongst the civilian Genno of sufficient weight, and energy to ct as a counterpoise to the military element represented by Marshal Yamagata. it, manifested itself foreibly last winter, when the military party, rather than conent to a policy of retrenchment, com relled the Marquis Saionji's Cabinet to ratire, and Prince Katsura was prevailed upon by the Elder Statesmen to resume office. For the first time in the annals f new Japan public opinion overbore not only the counsels of the Elder Statesmen and the time-honoured influence of the

MI NO CHO DAME

DINLEFORD'S

THE EMERGING CHINAMAN.

(Continued from page 4.)

Among the people there is a sense of freedom-which is not always not abused. The proletoriat says that the Manchus have gone; they will point you to their own Your Shih Kal, their own Id Yuan Hung, their own Sun Yat Sen-real Chineso who now have the power to rule. In the Chipse atmosphere there is a sense of elation at the change that the establishment of the Republic has brought. But whilst the people call out loudly about this or that feature of the new rule, it is not for a moment meant that they understand, what they are calling out about. But, still, they are encouraged to do it-and it may be that they will learn in this way! Mora striplings, who have had a year or two in America or Europe or Japan, are often sent out as officials into interior places. They have no ideanof ruling justly-because some of them should themselves be still at school. And so it is rightly said that such new rule in China means that the Republic serves the people worse than the old regime did. In some provinces right through to Kansu and Tibet, right through to Szechuen and Yunnan. three is unarchy and mismie and blook shed and robbery, and all the evils that could have been sent to the people as a chastisement by the gods whom the Chi nese have worshipped for 40 centuries.

HOW, WILL, CHINA EMERGE ?" In some parts there is lawlessness, in other absolute order reigns, and progress runs apaco. There, is real advance in some areas; terrible retrogression in others. Reform and genuine desire to go nhead, stagnation and utter official hope-

In other provinces there is peace.

In such conditions it is easy to see, when one takes into consideration the size of the country and the widely varying conditions of life among the people, that writers find it impossible to agree. In one area one writer declares that China is now on her last legs; another, looking at life from another angle, in another area, sees nought but progression and nation uplifting.

But, however much they disagree upon its effects, one and all are agreed about the change—for the better or worse, the next year or two alone can probably de-

What I have written deals only with the common millions of Chinese at nome in different parts of the East. It does not touch the Governmental cutlook, of course; it does not deal with the wobbly condition of finance, which, after all, is the very life of a nation in this age. It will merely show that the establishment of China has worked a tremendous change on the face of the people, and in subsequent articles for "The Duily Chronicle " I hope to investigate the changed thought of the nation, for which the Republic is responsible.

For the man who knows his China hest must admit that, no matter how much there may be in the change that we do not admire, and which we feel is making or national destruction, the Chinese as a people at no part of their history have shown such independence of thought and nction as characterises their national life at its present juncture. But this very freedom to think and in large measure net as they please may even yet be their undoing .- Edwin J. Dingle in the London Daily Chronicle."

the cause of the suicide of Mrs. Lilian M. tors, which sat at the Surveyors' Institute, Evans-Lombo, the wife of Lieutenant- Westminster. The claim was against the Colouel Charles S. B. Evans-Lombe, of the Dorwent Valley Water Board, who ad Leinster Regiment, who was found shot mitted liability to the extent of £5,801... dend in her bedroom recently at Buncrana, The first witness on behalf of the Boards near Londonderry. Mrs. Evans-Lombo had suffered from

sunstroke in 1906 and was invalided home from India. 'Two years later whon she rejoined her husband, she was attacked with malarial fever." Following this she suffered a mental breakdown, and eventually was those sums he had provided for in the compelled to return again to England. Since then, it was stated at the inquest on Monday, she had suffered greatly from headaches but was invariably cheery As the result of the pain his wife was very depressed stated Colonel Evans-Lombe. On Sunday morning she begged him to go to church with her cousin who was staying with him. While at church he received a message to return home, and found his wife dead in bed holding a pistol he had purchased for her in India. Death was caused by a wound in the temple.

The jury returned a verdict of Suicide while Insane from Physical Torture, and expressed deep sympathy with the re-

SORE THROAT: Ita Cause and Cure.

If your threat is sore, swollen, inflamed—if it hurts you to speak or swullow—you should at once take some Formamint Tublets.

They case the pain at once—cure the Sore Throat quickly-prevent further attacks—and safeguard you against infectious diseases due to

Germs are breathed out by the sick, and we inhale them from the uir. They are seeds-living atoms of plant life-so small that we can only see them through a microscope, and then they look like mere specks, us shown in the above illustration. These germs grow and multiply at

a great speed in the warm moist lining of the mouth cavity. They also throw off poisons which cause various throat troubles and infecrious discuses. • The most thorough and certain way to kill these germs in the mouth and throat is to suck Formamint

Tablets, which are both a cure for throat troubles and a preventive of infectious diseases like Diphtheria. Consumption of the Lungs, Scarlet Fever, Measles and Tonsillitis.

Praised by Physicians and the Public.

Formamint is a genuine remedy. Over 7,000 physicians have publicly certified to its value. Hundreds of eminent people are also Formamint users, including the Rt. Hon. A. J. Balfour, M. P., Lord Justice Buckley. and Queen Alexandra's confidential Secretary, the Hon. Charlotte.

The Archdeucon of Bristol writes: "I habitually use Formamint as a preventive of Sore Throat," Viscount Ferrard writes :- "Sore . Throat quickly disappears after using For-mamint Tablets." Signor Caruso, the world-famous tenor, writes :-" | have found Wulfing's Formamint Tablets very beneficial to the throat and pleasant to the taste."

Among medical men, Professor Seifert, M.D., the famous specialist, writes in The Medical Press and Circular:-" I attach great significance to the worth of Formumint Tablets. They are splendidly adapted as a preventive of infectious diseases, and I have prescribed them extens-ively in Tonsillitis, etc.

Why continue to suffer from Soro Throat? Try this effective remedy, which, by the way, is both palatable

It can be purchased at all Chemists. in bottles of 50 tablets. But insist on genuine Wulfing's Formamint, and refuse worthless substitutes. Send the coupon to-day for a Free Copy of a valuable handbook, entitled "Hints on Sore Throat," by a London physician.

DUKE'S CLAIM FOR £43,000.

The Duke of Devonshire's claim for upwards of £43,000 in respect of easements in Chatsworth Park, by the laying of pipes for carrying water for the supply of Sheffield, Derby, Nottingham, and Leicester, Physical torture due to headaches was again came before the Court of Arbitra-

Mr. E. Holmes, of Sheffield, surveyor to the Board, continued his evidence. Examined with regard to his estimate of the amount due to the Duke, he stated that he considered 10s. per lineal yard for the easement through the park, and 5s. per yard for the easement through the agricultural land were fair and reasonable sums, and

In his subsequent evidence the witness said that so far from damage having been done; improvements had been affected to the estate. In consideration of the incon- Codfish, -Mun Yu venience to the occupier of Chatsworth House, he had put down £2,0%. The total amount of compensation -£5,801-he | Cuttle Fish,-Muk Yu ... considered a fair and reasonable sum. In cross-examination by Mr. Balfour Browne the witness said he had heard that as many as 70,000 people had visited Chateworth in a year. Mr. Balfour Browne: The contents of the house are worth an enormous sum of money ?- Enormous.

Mr. Ballour Browne: I remember at the time of the late Duke's death this was kept as practically a museum for the public, and yet death duties were charged on those curies inside the house.

who has ever watched their flight. Some less advanced animals have only learnt to glide, and are now in the same stage of development as the Wrights were a few years ago. Perhaps these gliders developed more slowly, or perhaps only began to learn the art many ages after birds had learnt to fly. A few plants also have developed wings to their seeds, so that they can glide away to more suitable places for germination and growth. In the opinion of biologists, not recovered. birds, bats, fishes and insects all learnt to fly independently; inheritance from a common stock played no part in their development. There are large flying animals now, and the great majority in existence are extreus to expect difficulty in marking a very large acroplane, and theoretical considerations confirm this view. HONGKONG'S TIME SERVICE.

Mr. T. F. Cluxton, Director of the Hongkong Observatory, writes as follows upon the local time service in his annual report, which was submitted to the Legis-

ative Council on Thursday last:-In February a proposal was submitted to Government for an improved time service, including an hourly signal to the Post Office for distribution to the various offices, etc., at a nominal charge. Before any action was taken in the matter, however, the manager of the China and Japan Telephone Company applied for a daily time signal to correct a recently imported electric transmitter with which he proposed to drive half-minuto dials at various points in the Colony. On the recommendation of the Director this application was approved, and in the month of December the Telephone Company laid

an underground cable for this service from the Observatory to the telephone cable which connects Hongkong with Kowloon, and also re-modelled and rewired the entire time service according to specification. The new system was brought into use on December 20. Since the beginning of the year 1913 the time ball on Blackheads Hill has

MINISTERS AND MARCONI SHARES.

THE GOVERNMENT'S ATTITUDE.

LANDON, June 18. The Cabinet considered the procedure to be adopted in the Marconi debate, after which Mr. Asquith announced in the House of Commons that he did not propose to put down a Government anotion regarding the Marconi Report.

It is presumed in the Lobby that the Government will either meet the Opposition with a direct negative or support some resolution from a member of the Liberal back benches.

It is reported, however, that there may be no division, after the explanations of Sir Rufus Isaacs and Mr. Lloyd

Numerous entries have been received for the night-fete aquatic sports which will be held on Saturday night at the Victoria Recreation Club, commencing at 9.15 p.m. The Bath House sub-committee, of which Mr. H. C. Sayer is Convener, is sparing no pains to make the feta a success, and it is to be hoped! that there will be a large attendance. The string band of the D.C.L.I., has been engaged, and the programme is a most attractive one. Members will be admitted free, and for non-members nominal entrance fee of 50 cents will be charged. The events include a 2 lengths handicap; 3 lengths handicap; pillow fight in tubs; diving from spring board; ladies' nomination; team race; and a water pole match. Special scating accommodation has been arranged for 400 people, and splendid evening's entertainment is promised to those who attend.

A Wrestling Match.

With another change of programme, the second since it opened at Causeway Bay, the Circus and Hippodrome continues to attract large audiences. There is always a good sprinkling of Europeans

at the performances, but among the Chinese interest is particularly keen, many having come from places as far distant as Canton and Kongmoon to see the performances."

A special feature was introduced last evening it taking the form of a wrestling match between J. Gebhard of the s.s. Tilliwong, and Brouck Horst, a local man, for a purso of \$100. The match was the best of one fall, and was, of short duration. Horst putting his opponent down in 2 minutes 25 seconds. The rest of the programme consisted of grace-

LOSS OF A JAPANESE

STEAMER.

The Japanese steamer Tomoye-maru, 2,581 tons, which left Moji at nine o'clock on Mo day morning, the 2nd instant, for Chimulpo, Korea, struck a sunken reef off Joreisu Island, 16 miles south-east of Port Havilton, at two o'clock on Tuesday morning, (says the "Japan Gazette" of 7th inst.) during a dense fog, sustaining damage to her hull, and made water rapidly. The efforts made by the crew to save the steamer were of little avail. By eight o'clock the steamer had a list of degrees. The Korean mail steamer Kashima maru, the O.S.K. steamer Daichimaru, and the Hisakata maru, seeing that the Tomoye-maru was in distress, came to her assistance, but, as the reas were runing very high, they could not get alongside. They managed, however, to send boats to take off the craw, thirty in number, including the Captain, and landed them at Port Hamilton at nine o'clock on Wednesday morning. The steamer went down shortly

after four o'clock in the afternoon. The spot where the ateamer sank is wellknown for the rapid currents which prevail there, and as the dopth of water ranges from 17 and 40 fathoms, the refleating of the steamer is considered utterly hopeless. Some years ago the stenner Tetsurei-marv met a similar fate, at this spot. The Tomoy-maru, which was owned by Mr Japan Chronicle, understands, insured for Y. 100,000 with the Kobe Marine Insurance Company. She had no passengers on board, and was in ballast. Boats were sent from Wakamatsu and Chinnampo to the assistance of the crew.

FACE BROKE OUT IN RED PIMPLES

And Blackheads. Tried All Sorts of Ointment and Soap, But-Did No Good. Cuticura Soap and Cuticura Ointment Cured.

38, Jaspar 8t., The Chessels, Bedminster, Bristol, Eng.-"I suffered from pimples and blackheads on my face for quite a year, My face broke out in red pimples and black-heads. I tried all sorts of cintment and scape but they did no good. Instead they seemed to make them spread. I thought I should never get rid of them, but a friend advised me to use Cuticura Soap and Ointment so I sent for a sample and after using them a few times the pimples began to die away. I bought some more and went on using them for two months and they complotoly cured me; the pimples and blackheads went away." (Signed) Miss Nellio L. Cook, July 24, 1912.

ECZEMA ALL OVER BODY

34, Grey St., Toxteth Park, Liverpool, Eng.—"I had been suffering from ecsema for about fourteen menths and I could not get relief until I tried Cuticura Scap and Ointment. All my body was like a mass of dry sores and I could not keep myself from scratching especially my hands and face. I only used two tablets of Cuticura Soap and one box of Cuticura Cintment and they completely cured ma." (Signed) Mrs. Griereon, Feb. 25, 1912,

HONGKONG TIDES.

The tide table give below has been compiled at the Nautical Almanae Office in London from the result of the analysis of observations taken by means of an automatic tide recording machine in the Water Police Basin at Tsim the Tsui during the years 1837-8-9.

The zero of the table corresponds with the zero of the sounding in the Admiralty Charts which has been found to be 4 feet

3 inches below mean sea level.

To obtain the depth of water on the tide gauge at the Victoria Naval Yard add 3 feet 4 inches, and on the gauge at Lamout Dock, Abardeen, add 10 feet 6 inches to the height gives in the teles.
